# **"BACK TO BASICS" UNDERSTANDING NFPA 72: NATIONAL FIRE ALARM AND SIGNALING CODE (2 DAY COURSE) NFPA 72 2016 AFAA033**

## **COURSE OBJECTIVES**

This 2 day seminar reviews and explains the ever changing roles of fire alarm systems and how to apply NFPA 72 - The National Fire Alarm and Signaling Code for improved protection and compliance.

Students will be able to explain how building, fire, and life safety codes influence the requirements fire alarm systems. In addition, students will be able to determine how NFPA 72 is used to design, install, and maintain a fire detection and alarm system and how the Code is arranged. In addition to new technologies and major revisions in the Code, we will address the newest requirements for initiating devices, notification appliances, emergency control operations, power supplies, circuits, pathways and much more.

14 Contact Hours Continuing Education - Participant must attend entire seminar to receive credit.
