BASIC FIRE ALARM SEMINAR- AFAA014

This basic fire alarm seminar is an application course beneficial for new installers, sales personnel, service technicians, plus building and fire inspectors involved in acceptance testing and/or plans review. This course is also useful as a refresher for anyone involved with fire alarms. This seminar reviews fire alarm system fundamentals; their components; and the proper methods used to satisfy the requirements of NFPA 72, *National Fire Alarm and Signaling Code*.

- Fire Alarm System Fundamentals
- Initiating Devices
- Notification Appliances
- Fire Safety Control Functions
- Battery-set Calculations
- Voltage-drop calculations
- Ohm's Law

COURSE OBJECTIVES

Upon completion of this basic fire alarm seminar, participants will be able to apply the proper application and Installation methods required by the NFPA 72, National Fire Alarm Code, 2016 edition.

7 Contact Hours Continuing Education - Participant must attend entire seminar to receive credit.

WHO SHOULD ATTEND

Fire and Building Officials / Technicians / Installers / Sales and Service Personnel

MATERIAL WE PROVIDE

Student workbook / reference manual

CEU hours for Engineers- The Registered Continuing Education Providers Program (RCEP) is a single comprehensive education management system for engineers, surveyors, design professionals and quality education providers. Managed by the American Council of Engineering Companies.

FIRE ALARM SYSTEM INSPECTION and TESTING SEMINAR – AFAA026

This 7-hour seminar is designed to help individuals interested in taking a Level I or Level II test for the new NICET Fire Alarm System Inspection and Testing Certification. It is based on the inspection and testing requirements of NFPA 72, 2013 edition.

- Understanding the NICET CBT Process
- NFPA 72 Chapter 7, Documentation
- CBT Testing Tips
- NFPA 72 Chapter 14, Inspection, Testing and Maintenance

COURSE OBJECTIVES

Upon completion of this seminar, each participant will be able to apply the proper inspection and testing requirements of NFPA 72-2013, National Fire Alarm and Signaling Code, Chapters 7 and 14 as well as understand the NICET I&T certification exam application process.

7 Contact Hours Continuing Education - Participant must attend entire seminar to receive credit.

WHO SHOULD ATTEND

- Fire and Building Officials involved in witnessing Acceptance and Reacceptance Tests
- Installers performing Acceptance and Reacceptance Tests
- Technicians performing Periodic Tests and Inspections
- Individuals preparing to take the Level I or II Fire Alarm System Inspection and Testing Certification Exam

MATERIAL WE PROVIDE

Student workbook / reference manual
